“ *I stopped by your house today to see how you been. its been a few years since we had a chance to catch up. I walked the woods checking on my old deer stands and reminisced about our old hunting conversations when i was just a young boy. I stumbled across this obituary by complete accident searching for your phone number online. I'm shocked and saddened but I know heaven is proud to have you. Thank you for all the great memories you allowed me to have in the woods behind your house.*
