“ *The Essence of a father*

*Set apart from himself, the father side was set free
By the special love he felt when the two of you came to be.
His love shall always endure, his memories within you are secured.
Yes the essence of your father will always be, For he has risen to
the Holy Trinity.
When you have that special thought, smell, or sound. It's your father
letting you know he'll always be around.
The father that held you loved you and made you laugh, Will now
watch with angels on your behalf.*

*To my niece's Jackie and Kathy my love thoughts and prayers are
with you.*
