“ *My Mondarrius . Words cannot express how I'm feeling at this moment . I make post holding back but the pain runs deep . You were and still are my other half . 11 years strong of love and friendship. I know that you're with me through out my journey . I don't have to go in too deep because at the end of the day We knew where we stood with each other . Losing you was losing half of me . You told me death was the only thing that could separate us But that's not even enough . I love you always and forever . Until we meet again . Fly high and sleep light .*
